

1874. Map almost looks like Dallas Lake and Third Lake were connected by a narrow opening.

Picture is from the east end of Dallas Lake. No houses on Sunset Point!  
(Maybe 2) It was filled to build houses out there. Dallas Lake was originally  
called "Third Lake".

Looking over at north shore on Dallas. Look at cabins in the lower part of photo. YWCA CAMP. Upper right shows cement piers on the "Gold Coast" as we called it. Dallas Bay had not been developed.

Dallas Lake North Shore. Long cement piers, some with bridges, the island !  
Early 70s ??
